

Workshops & Live Demos Programme

Eduvista Labs at New Trends in Teaching, Learning & Education.

PROGRAMME

2026 DEMO EDITION

Event programme

Drop by Stand A - Innovation Area for short demos and practical sessions. Times and speakers below are fictional and intended for SharEvent QA.

Time	Session	Host	Format
09:30-09:50	AI Learning Studio: Quick Demo	Daniel Reed	Live demo
10:30-11:00	Designing Better Digital Learning	Maya Singh	Mini workshop
11:45-12:05	Learning Analytics in 20 Minutes	Emma Collins	Live demo
14:00-14:30	Responsible AI for Educators	Dr. Lara Bennett	Talk + Q&A;
15:15-15:35	Course Design Toolkit Walkthrough	Maya Singh	Live demo
16:15-16:45	From Pilot to Practice	Daniel Reed	Case workshop

Featured session

14:00 - Responsible AI for Educators

A practical conversation about using AI to support teaching while keeping learning goals, transparency and human oversight central.

Workshop descriptions

AI Learning Studio: Quick Demo

Explore a fictional educator workspace for generating activity ideas, drafting feedback prompts and structuring lesson plans.

Designing Better Digital Learning

A compact design exercise covering learning goals, activity sequencing, learner support and accessibility.

Learning Analytics in 20 Minutes

See how participation and progress indicators can be turned into questions for programme improvement.

Responsible AI for Educators

Discuss practical guardrails for transparency, quality review, privacy and learner communication.

Course Design Toolkit Walkthrough

A guided tour through templates for course mapping, assessment design and learning journeys.

From Pilot to Practice

Learn how to define a small pilot, collect useful evidence and decide what should be scaled or changed.
